BEAUTY! ENERGY! BALANCE!

Open to the possibilities…everyday!

Use the Power of Crystals and the Wisdom of Ancient Civilizations to Live Your Best Life Now!

Beautiful crystals and gemstones may be placed on or around the corresponding body chakra to enhance energy resonance during meditation, or time spent in rest and relaxation. Holding a stone in your non-dominant hand will also allow the energy of the individual crystal to flow into the body and direct its unique qualities to the appropriate chakra. At night, an individual stone may be placed under your pillow, at your feet or under your bed.

Use your intuition and have fun exploring the possibilities these magical gifts from the natural world have to offer you!
